Hello Team:

I hope everyone is enjoying our very warm summer. We are progressing nicely with our Axis of Care program. Soon we will be connecting people with important health services at our Holley Community Center. Over the next couple of weeks we will be meeting with partners and developing workflows. Jeanette Worsley will serve as our Health Coach and will work closely with Deb Rothmund and Rachael Escobar. I am very excited about this team and the good things they will do for our Holley customers. I will share more information as things develop.

Another exciting thing coming down the pike is the 211 WNY Ride Untied Last Mile Delivery Program. We just received approval to participate in this program which utilizes Door Dash, free of charge, to deliver small items to customers. This could be emergency food, personal items, prepared meals, school supplies, COVID PPE, gift cards, coats, senior needs, infant supplies, and more. Just think of the possibilities!! As soon as we develop the workflow and job aids, we will get information out to all on how to utilize this service.

If you haven’t done so, take a look at our website. Our home page now features the group photo we had done at the in-service.

As always, thank you for all that you do. Together we are making our communities stronger, healthier, and resilient!
